

School Based Wellness Centers are offering telemedicine visits

Telemedicine visits with our providers are NOT appropriate for emergency care.
If you are experiencing a medical emergency, call 911.

Who is eligible?

- Students who attend a school with a School Based Wellness Center and are enrolled in the program.
 - » Enrollment forms can be found on the Howard County Health Department website or your school's website.
- **Students that are uninsured or have no Primary Care Provider.**
- Students with a non-urgent medical condition suitable for a telemedicine visit.

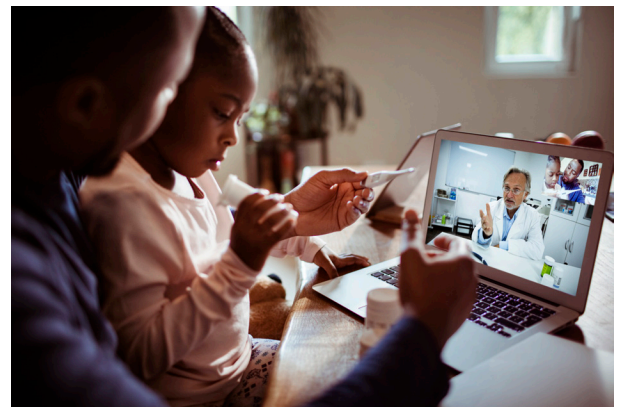

What is the cost?

- If your child has Medical Assistance (MA), the visit will be charged to MA. There is **no charge or fee for you to pay** even if your child is without health insurance.

How does it work?

- Family must have access to computer or smart phone.
- Family contacts jdonald@howardcountymd.gov or **410-313-6367** to schedule call with provider.
- Provider calls family directly to schedule telemedicine visit and provides instructions about the telemedicine process.
- Family uses smart phone or computer to have the telemedicine visit.

**Not all health concerns can be evaluated via telemedicine and your child may need to be referred to a provider for an in-person exam.*

***Families with private health insurance should contact their medical provider directly to receive medical care.*
